

ZION'S STORY

THEATRE-BASED HUMAN TRAFFICKING PREVENTION AND AWARENESS

Zion's Story is a new human trafficking prevention and awareness program for middle and high school youth, families, and communities. This one-of-a-kind creative and interactive experience cultivates awareness, empathy, and action while at the same time building community and connection within the participating group.

The program takes a holistic approach to prevention by addressing root causes that lead to trafficking. It also supports participants in identifying the intersections with other well-being and safety issues affecting young people today, including substance abuse, peer bullying, decline in mental health, and online and gaming addictions.

IN-CLASS LESSONS & LIVE INTERACTIVE ASSEMBLY

The live theatre assembly utilizes a unique role-play process to equip and empower students to consider safe and healthy choices to protect themselves and their peers. Before and after seeing the play, participants take part in two 60-minute in-class lessons to deepen the learning.

DATES

The program will implement in San Diego County Schools April/May 2024 and is *NOW SCHEDULING*.
